HCA ACTUARIAL QUESTIONS FOR BLUE CROSS BLUE SHIELD OF VERMONT

The Office of the Health Care Advocate (HCA) submits to the Green Mountain Care Board the below-listed actuarial questions for Blue Cross Blue Shield of Vermont (BCBSVT) in the above-captioned matter.

1. Vermont Health Connect (VHC) has been responsible for billing consumers who purchased plans through VHC. The state had planned for carriers to take over billing these consumers starting in 2021. However, the planned switch was postponed. As in past years, VHC will bill these consumers in 2021.

BCBSVT specified that it added a 0.6% increase into the 2021 VHC rate filing related to the assumption that it would take over billing for VHC enrolled members. GMCB-005-20rr, Actuarial Mem. at 5. Given the timing of the announcement that VHC will continue to be responsible for VHC enrollee billing in 2021, it is understandable that BCBSVT did not incorporate this fact into its filing. Please list all changes to the filed rate that are now needed to reflect that VHC, and not BCBSVT, will be responsible for billing VHC enrolled members in 2021.

2. Do cost sharing reduction plans take more administrative time than other QHPs and therefore represent a larger portion of administrative costs? If yes, does BCBSVT silver stack these costs or spread it out among all plans?
3. Vermont implemented a special enrollment period (SEP) in response to the Covid-19 crisis which is still open. Please provide the following to date:
 - a. the number of Vermonters who have enrolled in a BCBSVT plan using this SEP, broken out by CSR plan and metal level, and
 - b. any impact this new member population had on age/demographic factors.

4. Please confirm the accuracy of the below-provided table that lists requested rates and rate components, allowed rates and rate components, and actual rate components. If the cell is blank or you believe the value listed is incorrect, please provide the value that you believe is correct.

5. On page 6 of your Contribution to Policyholder Reserves Memorandum, you state (referring to Covid-19): "These costs and risks have are [*sic*] counterbalanced by the deferral of non-emergent care that has taken place during the declared state of emergency." Given you have some post COVID-19 data, can you provide an exhibit to show how the costs balance out?
6. Has BCBSVT implemented or planned to implement any risk optimization activities for years 2019, 2020, and or 2021?

Dated at Montpelier, Vermont this 8th day of June, 2020.
